BOARD OF SUPERVISORS.

A called meeting of the Board of Super visors was held last Saturday. At 1 o'clock President Salisbury called the Board to order, and on calling the roll the following members were found to be present: Mesars. Clark, Curtis, Harrison, Jeffers Kelly, Roberts, Waterhouse and Zoeckler.

The reading of the minutes of last meeting was dispensed with.

The President stated the object of the meeting to be the consideration of a contract submitted by the Baltimore & Ohio Raitroad Company in reference to exemption from taxation, past, present and inture.

Accompanying the document was a letter from 2d Vice President Keyser

which was read.
The following is a copy:

Warning Words.

The strength and nervous energy of the numan body ought to be increased during the winter, for two reasons: In the first place, diseases of the most deadly character may be generated at this season; and econdly, it is of the utmost importance shat during the cold weather months the system should be put in a condition to withstand the effects of the Spring mias-When the reading had been finished, of Summer. It is therefore advisable, in When the reading had been finished; several members stated that they were not satisfied with, the contract, as it contained provisions not contemplated when the resolution under which it had been drawn up, was adopted.

Mr. Harrison made the motion that the paper be laid on the table for the present, remarking that a dispatch had just been received from Mr. Keyser instructing Messra Lamb & Paull to prepare a contract in accordance with the views of the Board. The paper submitted by the company had been prepared under the impression that the Board of Supervisors levied the school district taxes, whereas such is not the fact. Mr. H. asked, therefore, that a recess be taken until? O'clock in the evening, by which time it was thought another contract could be drawn up.

The motion research of the present in the result of the part of the part of the present in the submorbit and all unges. The summer of the present in the contract of the present in the paper be laid on the table for the present received from Mr. Keyser instructing Messra Lamb & Paull to prepare a contract in accordance with the views of the Board. The paper submitted by the company had been prepared under the interest when the most agreeable. The temperature of winder would be in itself a glorious tonie, if it did not, unfortunately, bring with it a volume of chilling moisting with a volum course of the Bitters is to give vigor and tone to the entire organization—the superficial muscles and nerves, as well as the internal viscera. A regular habit of body, a healthy and natural thow of bile, an active digestion, a good appetite, pure blood, and a vigorous circulation of that blud, are among the blessings derivable from a persistent use of Hostetter's Stomach Bitters, which not only more than supplies the place of the best tonics, catharties and antiseptics prescribed in their separate forms by physicians, bur their separate forms by physicians, but perform the three-fold work of invigoration, regulation and purification, at one and the same time.

MANHOOD

Young and Rising Generation.

The regetative powers of life are strong, but in a few years how often the pallid hue, the lack lists eye and emaclated form, and the impossibility of application to mental effort, show their baneui influence. Is soon becomes evident to the observer that some depressing influence is checking the development of the hody. Con numption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from orthogeness of the edit, the powers of the body, too much enterebled to give seat to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the nenses is looked for with anxiety as the first symptom in which nature is to show her saving symptom in which nature is to show her saving power in diffusing the circulation and visiting the check with the bloom of health. Alas! increase of appetite has grown by what it fed on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergree as the energy of the state of the sta ndergo so fascinating a change from child to oman, is looked for in valu. Who can say that these excesses are not fre-quently followed by those directed diseases, Insani-ty and Consumption? The records of the In-sane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears.
